Subject: Re: End of year crime stats

Proactive policing, I think, was higher in 17 than 16.

We must do better

In terms of major crime categories, yes, murders are it. But of course murders are what the media focuses on, understandably.

Rapes are static, and drug/narcotics charges are down, but I'm not sure whether that's good or not. To some degree, drug arrests reflect proactive policing.

Thanks. Are murders the only decrease?

No big surprises here, but thought you should just be aware of them before your State of the City talk tomorrow.

We will probably not release these until after the Crime Commission meeting on January 25. Just giving them to you now FYI.

End of 2017 compared to 2016:

Major violent crime up 8.3 percent (driven by ag assaults and robberies)

Major property crime up 9.8 percent (driven by auto thefts)

DV up 4.1 percent

Overall Group A Crimes (46 categories) up 6.3 percent

I have been pushing MPD to be ambitious in their OSC goals for 2018.

Bill G.
